District Mourns Death of Mrs. R. M. Harper

MRS. R. M. HARPER, ANOTHER OLD TIMER PASSED AWAY Monday evening another of the pioneers of the Irma district passed to her reward, when Mrs. R. M. Harper passed quietly away. The deceased who was in her seventh year had been feeling poorly for some time but was not considered seriously till Sunday night when she complained of feeling worse, but apparently recovered. Monday evening she had another sinking spell from which she failed to recover. The late Mrs. R. M. Harper came to Irma from Smith's Falls, Ontario, some twenty years ago and has resided with her husband on their farm north east of Irma ever since. She always took an active interest in church work and any community doings and made a host of friends especially among the old timers, many of whom have moved from the district. Besides her husband she leaves her son Alvin, who resided with his family on the adjoining farm, five brothers—William, Allan, Fred, James and Frank Barry, all of whom are residing in the east. The funeral will be held from the Irma United Church, Thursday afternoon.

JOSEPH HARDY DEAD
Word reached Irma the first of the week of the death of Mr. Joseph Hardy at Edmonton on May 24th. Mr. Hardy was a resident of the Zolovara district for a number of years prior to moving to Edmonton. He was 84 years of age and besides leaving his wife, two daughters, Mrs. M. Anderson, and Mrs. R. Robson, and one son Mr. Lane Hardy survive. The funeral was held from McBride chapel to the Mount Pleasant cemetery, Tuesday afternoon.

NOTICE — PLEASE READ
The undersigned have set a day for a general clean up of the local cemetery on June 11th, 1930. Please be here at 10 A.M. if you own a plot, or if you do not, but desire to do honor to those who have gone before, and to make our cemetery a credit to the community. Do not forget to bring a hoe, shovel, axe or suchlike implement. Ladies please bring lunch as the work required will take the full day.

YOUR FRIEND — THE WEED INSPECTOR
Maybe you consider him pest? Perhaps not! Every good, earnest farmer is his own weed inspector and he conscientiously sees that all noxious and other weeds are properly controlled and eradicated. "Fine," you say, "but why the weed-inspector?" The answer, friends, is simply this. The purpose of the weed inspector is to see that uniform weed control measures are practiced on all farms in the area to protect the clean farms from the infested farms and to help all with their weed problems. To be fair and just must inspect all of the land. So don't hold a grudge or think that he was "set" on you when he visits you. He is working in your interests, he is for you "tooth and nail," so greet him with a smile, tell him your weed problems and co-operate with him for cleaner and better farming. Friendship, after all, is proven by the test of time. The weed inspector will stand the test. Mr. J. H. Elliott has been appointed weed inspector for Battle River Municipality. The Department wishes them every success in this work. P. D. Huxley, Field Supervisor, Wainwright.

ARCHIBALD WINS BY KNOCKOUT
At the boxing match at Cadogan, May 24th, Curly Kid, of Irma, secured a knockout over Olson of Metiskow in the 5th round. There were two other matches in which Peterson of Metiskow got a decision over Renshaw of Loughheed in 6 rounds. In the other match Wahl of Hay Lakes got the decision over Curley Maul of Metiskow in 6 rounds. The preliminaries had been keenly contested. Tedbetter of Haysden acted as referee. A good crowd of spectators were well pleased with the referee's decisions. Curly Kid and Wahl have a match for the 21st of June at Provost.

S.R. Bowerman Liberal Nominee for Wainwright

On Monday last, at the I.O.O.F. hall, Wainwright, a large gathering of followers of the Liberal party met in convention for the purpose of nominating a standard bearer to contest the forthcoming election to the provincial house in the interest of that party. The president, Mr. M. L. Forster, occupied the chair, and Secretary Daugherty read the notice calling the meeting. At the outset, the chairman appointed a resolutions committee and a credentials committee, but after consideration it was decided that all present should feel free to take part in the discussions and business of the meeting. Upon the call for nominees, Mr. Jas. Robinson placed the name of Mr. Stephen Royal Bowerman before the meeting, and a motion to declare nominations closed was carried on a standing vote.

INDEPENDENT CONVENTION AT WAINWRIGHT
On Wednesday we understand an Independent Convention was held at Wainwright when Mr. E. A. Pitman, of Chauvin, was nominated on an independent ticket. Mr. Pitman, we understand is a prosperous farmer from the Chauvin district and has a big backing of friends who have offered to co-operate with him in helping him win the coveted seat, in the next election.

The Wastebasket

Something to worry about—the throats of some whales are so small that they cannot swallow an orange.

"Pardon my delay in getting here, but I have been setting a trap for my wife," said a local citizen when he reached the lodge hall last evening. "Good heavens, whom do you suspect?" several of the lodge brothers asked, breathlessly. "A mouse in the pantry," he replied.

"Do you charge batteries here?" asked a lady who drove up in front of a local garage. "Yes," replied the attendant. "All right, put a new one in this car and charge it to my husband," she said.

"I'll bet you never saw any dancing like this, uncle, back in the '80s," remarked a young lady at a dance in a neighboring town to an old gentleman spectator. "Once—but the place was raided," the old man replied.

"How old do you think I am?" asked a local girl of her fellow while fishing for compliments. "Well, you don't look it," he replied.

"That rouge certainly looks natural," said a local fellow to his Jarrow girl. "I thought for a long time it was your skin." "Well, it's the next thing to it," she replied.

"I am introducing a brand new invention," said an agent stepping into a local office yesterday. "It's a combined talking machine and carpet sweeper with a detachable tone arm that can be used as a letter opener." "Not interested," replied the boss. "I got one already. I'm married."

Excuse received by teacher. "Dear Teacher: kindly excuse Johnnie's absence yesterday. He fell in the mud. By doing the same you will greatly oblige his mother."

PREMATURE

An Irishman lay dying when the odor of cooking assailed his nostrils. Summoning his weeping daughter to his bedside he said:

"Nora, darling, ain't it doughnuts that I smell?"

"Right for ye, father," the girl replied.

"And would ye be asking your mither if I can have one before I die?"

The daughter delivered the message to mother in the kitchen and brought back this answer:

"Mither says ye cannot have one of them doughnuts; they're fer the wake."

Church Notices and Activities For This Week

ANGLICAN CHURCH SERVICE
Anglican church service will be held on Sunday, next, June 1st in Irma United Church at 3 p.m.

The W. A. are having a tea and sale of home cooking on Saturday, June 7th, afternoon and evening, from 3 p.m. Upstairs in the Nu-Way Store.

Next W. A. meeting will be held at the home of Mrs. F. Thurston on Tuesday, June 10th at 2:30 p.m. Every lady welcome.

WEEKLY REVIEW PROV. MARKETS

BEEF—Steers \$10@10.50; choice light from \$10.50@11, with good \$10.25@10.50; medium \$9.25@10 and the common \$8@9.

STOCKS—FEEDERS—Choice feeder steers \$6.50@6.75. Choice stocker steers from \$6@7. Stock cows from \$5.50@7.

HOGS—Edmonton brought \$11.25 for the hams this week, with selects at 50c premium per cwt. on fed and watered basis.

SHEEP—Price about steady, with lambs from \$9@10.50; yearlings \$7.50@8, and the ewes selling at \$6@7.

BUTTERFAT—Prevailing market quotations are as follows: Special grade 28-31c; first, 26@29c; second grade, 23@26c.

POULTRY—Crates now arriving on the market consist mainly of old hens.

EGGS—Lighter receipts on market this week. This week's quotations are: Extras, 22c; firsts, 20c, seconds, 16c.

HAY—Demand on markets is reported as slow, while offerings have not been very liberal. Upland hay quoted at from \$12@13; per ton, shipping points, with timothy from \$18@19 per ton. Calgary loose hay market reported firm; receipt not large, while demand is fairly active. Feed oats remain steady at 50c, with offerings limited.

VIKING

There are, in the inspectorate, some two hundred rooms and schools, and of these, sixty eight were represented at the festival. Viking School entered sixty contestants and these were transported to Camrose in sixteen cars.

This was a great undertaking but thanks to our excellent chauffeurs, we made the journey without any mishap.

Viking has good reason to be proud of the excellent showing made by the pupils in most of the events. In chorus singing, Camrose took the cup by just one mark. The singing by our pupils of the "Gypsy Chorus" was wonderful, but they lost in the next song.

The contestants in the duet received "honorable mention", as also did some of the soloists and elocutionists.

In the "Town School Action Song" the cup was won by our Viking Primary Room pupils.

Public Meetings at Which J. R. Love, Will Speak

The general public is invited to attend the following meetings at which the U.F.A. candidate, Mr. J. R. Love, will speak.

Battle View, Monday, June 2nd, at 8 p.m.
Passchendale, Tuesday, June 3rd, at 8 p.m.
Gilt Edge, Wednesday, June 4th, at 8 p.m.
Park Road School, Thursday, June 5th, at 8:30 p.m.
Greenshields, Thursday, June 5th, at 8 p.m.
Heath, Friday, June 6th, at 8 p.m.

The meetings at Battle View, Passchendale, Gilt Edge and Park Road, will be held in the schoolhouses, while the meetings at Greenshields and Heath will be held in the halls.

The U. F. A. Party will broadcast their next radio program on Tuesday, June 3rd from 8.30 to 9 p.m.

Beekeepers Field Day Near Irma Wed. June 4th

Everybody interested in bees and honey, is invited to attend a Beekeepers Field Day to be held at one of H. W. Love's apiaries, just west of Irma, on Wednesday afternoon, June 4th. Mr. S. O. Hillerud, Provincial Apiarist and Mr. W. H. Scott, district agriculturist, of Sedgewick, will be on hand at 1 p.m. and will stay as long as necessary to handle the bees and answer any problems pertaining to bee culture, swarm prevention and proper manipulating of bees to produce a big crop of honey, will be discussed by Mr. Hillerud. If enough interest is shown on this date it is expected Mr. Hillerud will hold another meeting later in the season when preparation of bees for winter and other seasonal topics will be discussed. Whether you have bees or not, come and hear what Mr. Hillerud has to say about this very important and interesting industry.

SHORTHORN CLUB TO HOLD FIELD DAY AT UNIVERSITY

The northern Alberta Shorthorn Club have arranged with the officials of the Alberta University to hold a Shorthorn Field day at the University in Edmonton on Thursday, June 5th. All those interested whether members of the club or not are cordially invited to attend. Every effort will be made to make the day enjoyable as well as profitable. Coffee, cream, sugar and cups will be provided, bring a picnic basket. The program will commence at 10 o'clock in the forenoon and continue all day. Good speakers will be on hand. Cattle will be shown and feeding methods demonstrated. Angus McDonnell, of St. Albert, is president; W. H. Wallace, Viking, vice-president; Miss E. L. Holmes, Edmonton, Secretary.

Jarrow Sports Day, June 3rd

Jarrow will hold its annual sports day on Tuesday, June 3rd, under the auspices of the board of trade and the community club. This day has always been a gala day at Jarrow and the events are even bigger and better than any previous year. Good prizes have been hung up for baseball, horse races, bucking contests, foot races, slow car race, tug o' war, horse shoe tournament, hie kye, and other games. The day will end with a blaze of glory with a big dance held in the Community hall. For further information write James Miller, Secretary board of trade, Jarrow, or see large posters.

CARD OF THANKS

I wish to thank the Irma Ladies Aid and Fabryan school for the flowers sent my husband during his stay in the hospital at Edmonton.

Signed: Mrs. N. V. King.

A. G. Andrews Choice of U.F.A. For Sedgewick

(From The Viking News)

At a well attended meeting of delegates from all parts of the constituency, the U.F.A. and U.F.W.A. political association, last Friday afternoon renominated A. G. Andrews, sitting member, to again be their standard bearer in the provincial election June 19th. There were two other candidates, Chas. Hayes, of Strome, and John Gair, of Killam. After the first ballot it was seen that they had no chance of nomination, so they dropped out and Mr. Andrews' nomination was made unanimous.

Mr. Andrews made quite a lengthy and comprehensive report of the legislation passed since 1926 and reviewed some of the outstanding measures, and gave an account of his stewardship during the past four years.

At a mass meeting in the evening Premier Brownlee gave an address when he dealt with many of the problems of the day. He congratulated the convention on their nomination of Mr. Andrews.

Dealing with the wheat pool guarantee, the premier declared that the action taken by the three provincial governments had prevented a panic through dumping of wheat on the market. The financial position of the province was also dealt with in considerable detail, and the government's record defended in a real fighting speech that was roundly applauded.

"CRANBERRY CORNERS"

The Irma Players have changed the date of their play from Friday, June 6th to Wednesday, June 4th, and have made arrangements with Mr. Keifer to run a two reel "Talkie" after the play. Come and bring your friends. Tell everybody. Admission, Adults 50c. Students; Children 25c.

There will be no charge for the talkie for those who attend the play. For those who do not, the charge will be the close of the play for 25c.

A Hobby Essential To Life

Every person, old or young, should have a hobby. And why a hobby? Because a hobby means an interest beyond the mere task of making a living and because an interest is necessary to the enjoyment of life.

Life without interest would be a dull, prosaic affair. Yet there are some people who keep their noses to the grindstone day after day, year in and year out in a dull routine to provide the wherewithal to feed, clothe and shelter themselves and their dependents, without a let-up from daylight to dark. They never look around for some interest which will serve to brighten their lot and bring joy into their lives.

There are, of course, some men who are fortunate enough to have found in their vocation that keen zest which an outside interest gives to others, but it has been found by age-long experience that even such happily circumstanced individuals can and do pursue their work with better results and with greater contentment and less wear and tear when, to their work, they add a hobby.

"All work and no play makes Jack a dull boy" has been quoted so often that it has become platitudinous. Yet it is just as true today as when it was first uttered.

When the child puts his books away and closes his school desk for the day, he proceeds to enjoy himself with games and recreation in some form or another and in this manner revivifies himself for another day at school tasks. Educationists have discovered that the child who plays in season brings to his school work an enjoyment which enables him in the long run to outstrip the pale faced bookworm. He has a balanced and therefore a happy existence and this reflects favorably upon his studies.

And so with the adult. But in place of flying kites or indulging in boisterous play, the grown up carries his enthusiasm into the field of some sedate, but just as stimulating amusement. It matters little whether it be collecting postage stamps, indulging in politics, playing saw and hammer or engaging in some form of academic study, so long as it is something which arouses the interest of the participant and whets his appetite for more; and so long as it is something different from the daily task.

It is this recreation of interest which acts as a stimulus to the mind or a recuperative power to the physical being. It is at the same time restful and invigorating. This is why the individual with a second string to his bow, even if it be only used for recreational purposes, is more likely to make a success of life than one without it. He is able to turn again to the serious work of making a living, with the hope and joy which comes with a buoyant spirit, a rested body and a clear, refreshed mentality.

It is impossible to pursue a hobby without securing these results, provided it is kept within reasonable bounds, for recreation broadens interest and interest means life. Interest with existence is life. Life without interest is mere existence.

The time to develop interest is in youth. It is too late to wait until the pains and penalties of advancing years are taking their toll and forcing retirement from active work. The individual who waits until he is obliged to slacken the traces on which he has been pulling heavily for decades before looking around for an interest will find he faces an old age of misery, for he has developed nothing to which he can turn to make his declining years worth living.

The youth, the middle aged, the old, of both sexes should have a hobby and should develop a hobby in comparatively early life.

Explodes Old Theory

Plants do no harm in sleeping rooms at night, says a plant expert of the U.S. Department of Agriculture, for "a whole greenhouse full of plants would not give off enough carbon dioxide to injuriously affect the composition of the air."

Graded Beef In Demand

Officially graded beef is now being served in the dining rooms of the British House of Commons and in many London Clubs. Hotel and restaurant proprietors are also serving it, and the London housewife is beginning to ask for it.

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians for 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Prevention Better Than Cure

Annual Examination By Doctor Would Ensure Good Health
The annual conference of the Canadian Social Hygiene Council, at Toronto, made one sound recommendation to the public. That was to have an annual examination by a doctor.

It is a trite saying that prevention is better than cure. When a person feels well, or rather if a person does not feel ill, or is not bothered by a pain of any kind, the assumption is that the organs of the body are functioning normally, but the fact that so many people are taken ill suddenly, proves the fallacy of that belief.

Health should not be taken for granted, simply because one is apparently well. It should be proved by test, and if there is a condition that betokens a break-down of the inner machinery of the body in the near future, the doctor can repair the damage, or at least offset the evil day, before it has gone too far.

Many a man or woman has got a nasty jar on visiting a doctor about some minor trouble and being told that something serious is developing, or has developed. The average being does not like visiting his doctor, and usually leaves it until circumstances compel examination, but an enormous amount of sickness, an enormous number of operations, would be avoided if the habit of having an annual examination were universal.

Lots of people are more careful about the interior works of their automobiles than they are about the interior works of their own bodies.

THE ANAEMIC GIRL

Who Has Lost Her Charm and Beauty

"She seems to be losing her looks!" This remark is often heard about girls who were once noted for their sparkling eyes, their rosy cheeks and their vitality. The cause is not far to seek—they have become anaemic; that accounts for the pallor and the loss of charm. The anaemic girl, if she neglects her health, may be a sufferer all her life.

Take heed, you pale, anaemic girls. Plenty of fresh air, nourishing food and rest will help you, but what you need most is good blood. Those wretched headaches, that sick appetite and those terrible heart palpitations can only be banished if the blood is rich, red and pure.

Good blood—the kind that brings good health—is created by Dr. Williams' Pink Pills. The whole mission of these pills is to build rich, red health-giving blood. The pills are sold by all dealers in medicine or by mail, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Trade Deer For Bear

Harking back to the old days of barter, Winnipeg's Public Parks Board closed a deal with the Parks Board of Fort William. A husky little brown bear from the lakehead comes to Manitoba in exchange for two red deer. Each board paid freight on its own consignment.

Heart and Nerves Caused Her To Have Cold Hands and Feet

Mrs. Joseph Price, Red Pine, N.B., writes:—"Several years ago I was troubled with my heart and nerves and was so hot at times, my hands and feet would become numb and cold."

"I happened to see

advertised and started taking them at once. I continued for some little time, and since then I have had no return of my trouble."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

What's In a Name?

Not Very Much As Proved By Book Publishers

The answer to the question, "What's in a name?" seems to be clearly defined as the result of a questionnaire recently sent out by a firm of book publishers in an endeavor to ascertain what sells books. The 10,000 replies received to date show that only 100 purchased the books because of their titles. More than 3,450 sales were attributed to reviews; 2,460 to advertisements and so on, through the recommendation of a friend, reputation of the author, bookstore display, interest in subject, gift, lecture or sermon, with the title at the bottom of the list.

Uruguay's national anthem is in 70 verses.

W. N. U. 1539

SCIATICA?

Here is a never-failing form of relief from sciatic pain:

Take Aspirin tablets and you'll avoid needless suffering from sciatica—lumbago—and similar excruciating pains. They do relieve; they don't do any harm. Just make sure it is genuine.

ASPIRIN
TRADE MARK REG.

When Grain Kings Meet

Valuable Information Will Be Exchanged At World's

In midsummer of 1932, the city of Regina will become the clearing-house for world thought and knowledge on every important branch of field-crop production and marketing. Agrarian experts from all around the globe will gather at the World's Grain Exhibition and Conference to be held at the Saskatchewan capital in late July and early August.

While some \$200,000 has been offered in more than 1,500 prize awards for cereal, grass, clover and vegetable seed exhibits, separate sessions of the grain conference in conjunction with the exhibition are expected to be a most important portion of the program. Papers are to be read on agronomy, economics, including marketing, milling and baking, agricultural machinery, insect pests and friends, and other subjects.

English and French, it has been decided, will be official languages. Provision will be made for interpreters. It is contemplated that brief resumes of all papers—whose average length is limited to 2,000 words—will be printed in the two official languages and circulated to delegates before commencement of sessions. The meetings will be held during the mornings of the two-week conference.

Possibility of a short series of purely scientific conferences is envisaged by the executive of the Regina gathering; if such a series is found to be necessary, the meetings will be arranged so that they will not conflict with regular conference sessions.

It Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

Pope Pius Has Gold Telephone

Instrument For Personal Use Is Ornamental With Mother Of Pearl

The Pope's small state of 500 inhabitants soon will have what is probably the greatest proportion of telephones to population in the world. With the installation of a new system there will be 800 numbers, of which 600 shortly will be in use.

Pope Pius' personal telephone will be of massive gold, bearing the Pontifical seal and ornamented with mother-of-pearl. He will be able to telephone anywhere without his call passing through the exchange. Special private lines also will be installed for the Secretary of State and other dignitaries.

As the Scots Said

The news that Weithalwei is being relinquished by Britain to China may recall to a few old-timers Punch's cartoon of more than thirty years ago, showing two aged Scots engaged in the following dialogue: First Scot—"Ah see we wa Weithalwei." Second Scot—"Hae we?" First Scot—"Aye, we hae."

Use Minard's for Burns.

A catalogue of latest dietary fads for women has just been issued by a London grocer.

Old medicinal gardens of Japan date back at least to 702 A.D.

First-Aid

For all pains and aches, foot troubles, cuts and bruises, or general massaging purposes, Minard's simply can't be beaten.

An Accidental Discovery

Scientists Find Fish Scales Can Be Used As Fabric Coating

For hundreds of years Eve has taken her clothes from the wool of sheep and the skins of animals, but now she has gone one better—she is to wear the scales of fish.

Soon the smartest Eves will shimmer like mermaids. A firm at Berlin has at last patented a process by which fish scales can be used as a coating for various fabrics. Among many advantages is that the new material has a remarkable power of keeping out heat.

It is intended, also, to use a coating of artificial pearl on thin oilskin coats. These latest rain-proof garments will be light and completely waterproof, and when wet they will have a beautiful pearly glitter.

The discovery that fish scales could be used for this novel purpose was more or less accidental. Scientists were endeavoring to improve the process by which artificial pearls are made when they stumbled across the new idea.

After several attempts they found a method of washing, drying and grinding fish scales which produced a fine, crystalline powder. This, mixed with a solution of artificial silk in collodion, and can be painted thinly over the oil skin.

Persian Balm is irresistible. Fragrant as summer flowers. Cool as a mountain spring. Wonderfully invigorating. Softens and whitens the hands. Makes skin soft-textured and youthful. Used by women as a powder base and as a peerless aid to lovely complexions. Used by men as an effective hair fixative or shaving lotion. And for children, nothing soothes and protects their tender skin like the delicately cool Persian Balm.

Reindeer Trek Halted

Will Not Resume Journey Until Fawns Can Travel

Three thousand reindeer, being driven across "the top of the world" into Canada, on the order of the Dominion Government, have halted their long march in the Hunt and Colville River sections, until the end of the fawning season.

The herd will wait there until the newborn deer are strong enough to join the drive, which follows a route north of the Arctic Circle across Alaska to the Mackenzie River basin, of the Canadian Arctic.

Minard's Checks Falling Hair.

Market For Salt Increasing
The Canadian production of salt except for small exports is sold in Canada principally to the dairy, meat curing, fisheries, and chemical industries, and as table salt for household use. The market for salt in Canada is steadily increasing.

Peevish, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

According to an English weekly paper, the police always stop the traffic to let Mr. George Bernard Shaw cross the road. The idea of stopping Mr. Shaw to let the traffic pass is said to have been abandoned years ago.

WRIGLEY'S

When you need new energy, when you are hot and mouth is dry—pep up with Wrigley's—it moistens mouth and throat.

The increased flow of saliva feeds new strength to the blood, you can do more—you feel better.

Western Province Benefits

Will Collect Succession Duties On Estate Of English Baronet

Revenues of the province of Saskatchewan will benefit to the extent of \$14,331 by way of succession duties on the estate of Sir John Lawrence Langham, Bart., who died recently in London, England, and whose will is now being probated. Sir John left \$1,003,926, of which \$273,952 is in Canada, \$193,652 in Alberta, and \$54,300 in Saskatchewan real estate. The Saskatchewan property under the Succession Duty Act of the province, will be taxed at the rate of 17 per cent.

For treatment of caked bags in cows, or garget, use Douglas' Egyptian Liniment—the quick, sure remedy. Saves time and expense. Prevents blemished stock.

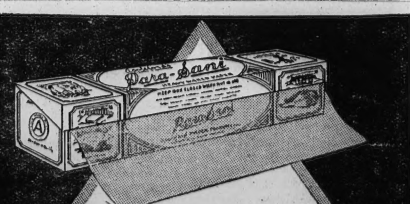

Paris has restricted automobile parking in the central area to thirty minutes, and physicians have banded together to ask for exceptions of this hampering regulation.

Campers Carry Minard's.

The Italian government is making strenuous efforts to assist the olive oil, wine and other basic industries.

EVERY BIRD LOVER should have this new revised edition of "Brook's Book on Birds" which contains 342 pages of valuable information on the care and feeding of cage birds, also contains (45 pages) of practical advice on the treatment of bird diseases. The regular price is 25 cents, but to readers of this paper who enclose 19 cents addressed to THE WINNIEPESaukee NEWS, PAPER UNION, 1000 WEST AVE., EAST, WINNIPEG, a copy of Brook's Book on Birds will be sent along with a generous sample of Brook's Bird Seed—a correctly balanced diet prepared from the finest seeds, selected from all parts of the world, together with a real treat for your bird, a sample of Brook's Bird Treat, a tonic that brightens the plumage and strengthens the song.

Every Bird Lover Should Have This Book

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh...delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

Canadians Have Much To Learn About Vast Empire Being Developed In North

So vast is the Canadian heritage and so numerous are the points offering promise of great and continuous development, that it is difficult for the most assiduous of newspaper readers to keep in touch even with his own province. For many distant information he is dependent on re-moter sources and therefore has all the more reason to appreciate editorial and other articles outlining what is being done in districts that are only in process of being opened to the light of day. Recently the Lethbridge Herald touched on the development of the Alberta Northland and remarked that as this is proceeding so British Columbia's great block of land east of the Rockies is coming in for a lot of attention. Speaking recently about the potentialities of this region it quoted Hon. F. P. Burden, Minister of Lands of that province, as saying that the section had one of the best bodies of coal on the continent, and according to coal authorities it was the only coal on the continent that would smelt without coking.

In close proximity, Mr. Burden said, was a great body of iron ore. In years to come, he believed, a great steel and iron industry would be developed and would create a big demand for the agricultural products of the district.

There were also other minerals, the minister said, and possible hydro-development at low cost.

The Herald repeats its view previously expressed that in the vicinity of the head waters of the Peace River, and where they cut through the backbone of the continent on their way to the Arctic, there is a veritable empire of wealth such as few Canadians even dream of. Here are to be found valuable commercial timber and pulpwood. The Groundhog coalfields in which the late Lord Rhinoceros was interested lie in that area. Close by there are said to be mountains of iron, while it is also stated that mines as rich as the Sullivan at Kimberley will be developed. And with all this there is, in the Peace River Canyon, water power capable of developing within a 12-mile stretch something like 1,500,000 horsepower.

While there is so much talk of a coast outlet for the Peace River country, it is well to bear in mind that the development of the mining, lumbering, pulpwood and hydro power potentialities along the Peace River head waters, is practically certain to open up a route through the northern section of British Columbia. Somewhere along the course of that route will be a railway, and situated upon it, close to the Pacific, and closer to the Orient than any other British Columbia city, will be a modern city founded upon the wealth of resources in that area.

We really know very little as yet, the Herald says truly, about the great northland which, in a few years, will be pouring its treasure into the world's markets and bringing back new wealth to Western Canada.

Settlers Are Keeping Ahead Of Railways

District In Northern Saskatchewan Rapidly Filling Up

Settlers are still keeping far in advance of the railway in the opening of the north.

For the past 10 or 12 years good crops have been grown in the Meadow Lake district, 100 miles north of North Battleford, and the growers have hauled their grain 60 miles to the nearest railway line.

This year the Canadian Pacific Railway is building a line through the Meadow Lake area but Meadow Lake is no longer the frontier town.

Every week hay-racks containing settlers' effects are to be seen ferrying the Beaver River, 20 miles north, making for a district on the other side which is rapidly filling up.

She: "I am so glad to meet some-body! Where shall I find a hairdresser?"—Lustige Sacher, Leipzig.

Britain Acclaims Canadian Wheat

Sir James Dunn Says Manitoba Product Makes Best Bread

All who are interested in Empire Free Trade should make it their duty to demand an "Empire Loaf"—made of wheat flour produced in the British Empire—and popularize it among their friends, says Sir James Dunn, in a letter to the London Evening Standard.

Sir James, a native of Bathurst, New Brunswick, and now a prominent lawyer and husband of the Marchioness of Queensbury, says that apart from any question of imperial sentiment, the Empire loaf consisting of 85 per cent. Manitoba wheat, is the best bread in the world.

His own researches into the relative nutritive values of Canadian and competitive wheats have shown the Manitoba wheat produces a bigger and lighter loaf, which gives greater nourishment than bread made from any other flour, he says.

(By Annabelle Worthington)

3279

Ideal interpretation of wrap-around with drape at side that combines with the surplice bodice that fastens at hip with buckle, to give the figure graceful length. The normal waistline is indicated by seaming which makes the tight fit through the hips and moulded line of bodice more prominent. The neckline with surplice vestee is unusually becoming fashion.

Style No. 3279 is distinctly smart in novelty silk and wool crepe in dark plum tones. The shawl collar is of plain faille crepe in blending tone, while the vest chooses white pique.

It is designed in sizes 16, 18 years, 36, 38, 40 and 42 inches bust. It's a model that makes up most attractively in crepe satin for the two surfaces can be nicely worked out for contrasting effect. The dark brown shade is especially popular.

Black silk crepe with eggshell vest is chic for all-day occasions and is favorite with smart women.

Pattern price 35 cents. Be sure to fill in size of pattern. Address Pattern Department.

Rice Growers To Compete

British Guiana May Have Exhibit At World Grain Show

In all probability rice growers from British Guiana will be represented in the competitive classes at the World's Grain Show, according to a letter received at the exhibition office, Regina, from J. Sydney Dashi, director of the Department of Agriculture, Georgetown, British Guiana. The compilers of the prize list for the 1932 World's Grain Exhibition designed to make it as attractive as possible to the growers of all countries. For this reason, apart from the fact that the cash awards offered are higher than have been offered ever before, the classification embraces practically all of the grain and seed crops cultivated the world over.

The rice growers of British Guiana, one of the smaller parts of the British Empire located in the tropical regions of northern South America, are showing a keen interest, and according to word received at the World Grain Show office from Mr. Dashi, exhibits of rice may be expected from that country. In concluding his letter Mr. Dashi says that he hopes "this colony will be able to take part in your exhibition and conference to be held in 1932. I shall advertise it so that rice growers may have the opportunity to participate."

For Healthy Poultry

Clean Soil In Run Necessary For Growing Chickens

Clean soil in the run is one sure and preventative for the most destructive poultry disease, intestinal parasitism, asserts the Poultry Husbandman of the Dominion Department of Agriculture. And practicing what he preaches, the poultry runs at the Central Experimental Farm have been freshly ploughed, and the rotation system of soil cleaning is under way on the runs used last year. A succession of hoed, grain and green crops is used to remove all possible infection from intestinal parasites. Poultry should always be kept on clean soil, especially growing chicks, and crop rotation on the poultry run is the one most effective way of enabling nature to do the trick.

Increase In Plant Imports

Canada Bringing In Large Number For Parks and Gardens

Canada's appreciation for the aesthetic in parks, garden and amateur horticulture is reflected in the amazing increase in imports reported in the importations of trees, shrubs, roots, perennials and bulbs. In 1919 the Plant Inspection Service of the Dominion Department of Agriculture examined 900,000 plants, etc., at ports of entry, while in 1929 the number examined was over 48,000,000. Inspection stations are maintained at Halifax, St. John, Quebec City, Montreal, Ottawa, Toronto, Niagara Falls, Windsor, Winnipeg, Estevan and Vancouver, where imported plants are examined to ensure freedom from insect pests and plant diseases.

Curious Custom In Ceylon

At a funeral recently of a native near Colombo, Ceylon, friends brought many gifts to the corpse. Each had something different, including cooked meat, fruits and liquors. As the coffin was conveyed to the burial place on a huge pink and white structure resembling an ice cake, the gift-bearers accompanied it in solemn procession.

R. S. McLAUGHLIN

President of General Motors of Canada, Limited, and one of the outstanding industrial figures of the Dominion, who was added to the board of directors of the Canadian Pacific Railway Company at the annual meeting of shareholders held early in May, Mr. McLaughlin is also vice-president of the General Motors Corporation of the United States.

University Is Loser

Alberta Regrets Removal Of Professor A. L. Burt To Minnesota

Anyone who went through the class-rooms of Professor A. L. Burt, of the University of Alberta, or heard him speak in public, will regret to hear that he is going to the University of Minnesota. For seventeen years, except for a period of war service, Dr. Burt has been at Alberta. He graduated from Toronto, and was a Rhodes scholar. Paying tribute to him, Dr. R. C. Wallace, president of the University, said: "He has established his position in a very notable way with the students of history in the University, and his books and other contributions to the field of history have given him a place in the world of accurate scholarship." Prof. Burt's "The Romance of Western Canada" was published this year.

Government Farms Are Busy

Extensive Research Carried Out By Dominion Department Of Agriculture

An appreciation of the range and extent of applied agricultural research carried out by the Experimental farms and stations of the Dominion Department of Agriculture throughout Canada is afforded by the report of the Director, Dr. E. S. Archibald. At the time the report was prepared there were 2,453 active experimental projects in operation, ranging in application from "Agrostology" to "Tobacco." Horticulture heads the list with a total of 641 active experimental projects; then in order come, animal husbandry, 421; botany, 295; field husbandry, 282; poultry husbandry, 168; agrostology, 149; cereals, 124; chemistry, 105; illustration stations, 70; tobacco, 69; bees, 63, and pathology, 25.

A Misunderstanding

"Surely, John, you haven't brought any one home to dinner?"

"Sure I have. Haven't you got anything for them?"

"Why, no, you told me you'd bring home a couple of lobsters for dinner."

"So I have. They're waiting in the parlor."

High-Class Poultry and Eggs

Believe it or not this picture represents \$700 worth of high class poultry and henfruit. Not many of them, it is true, but these hens are worth about \$50 apiece while the three roosters retail at the market price of \$100 each. The shipment is part of a big order being filled by the Record of Production breeders in co-operation with the University of British Columbia for poultrymen in the Hawaiian Islands, China and Japan. Each hen in the shipment has a record of more than 300 eggs per year, while the roosters also have imposing records. The shipment left VANCOUVER recently aboard the Canadian Pacific liner "Empress of Canada," for Honolulu.

Department of Agriculture Is Studying Problems of The Ranching Industry

The following article was prepared at the direction of Dr. J. H. Grisdale, Deputy Minister of Agriculture, by Mr. E. S. Archibald, director, Dominion Experimental Farms, Ottawa.

Previous to 1912, when the beef cattle industry in Canada was in a thriving condition, a very small investment, outside of that in cattle, was necessary to carry on the business. With the coming of the settler, and the consequent splitting up of the open range, the rancher was confined to a definite area. This change necessitated a more economical use of the range and the construction of fences, the development of watering places, and the production of winter feed. With these increased costs, the attention was paid to the class of cattle raised, the percentage cull crop, and the death losses. Although the best known grazing practices were followed there was a decline in the carrying capacity of the ranges, and many areas became badly overgrazed. The result was depleted pastures, less thrifty cattle entering the winter, and sub-normal gains in weight by marketable and breeding cattle.

It was not until 1925 that a demand arose for experimental work on the range, and following a survey in 1926, by the Dominion Experimental Farms, Department of Agriculture, it was decided to conduct experiments on the short grass plains to study methods of range management, with the object of improving the carrying capacity. As the outright purchase and equipping of an experimental ranch appeared to be unwise because of the large cost involved, it was decided that it would be more economical and more useful to co-operate with some rancher who had a long experience in ranching. Gilchrist Brothers, of Medicine Hat, Alberta, offered their co-operation, which was accepted and the experiments are now being carried out on this ranch.

The main project under investigation is known as the deferred and rotation system of grazing. It is usually carried out on three pastures, depending upon the conditions under which it is practised. The system is pasture twice a year, once in the fall, each pasture to mature a crop of grass. On the station, four fields, each comprising 3.74 acres, are used to determine the practicality of the scheme. The fourth field is grazed continuously and serves as a check on the other fields. In order to determine the efficiency of this system of grazing as a whole and whether or not the grass cover is improved, a thorough study of all factors affecting it is made.

An essential factor in range management is a reliable water supply. In this connection the development of natural watering facilities is being investigated. Other factors in range management being studied include the use of salt, the gains in weight by different classes of cattle, the possible limits of the grazing periods, the palatability and nutritive value of the range vegetation, the question of deterioration in the feeding value of hay kept several years in reserve, and the effect of frequent cutting on range hay production. As fencing occupies an important place in the ranch operations, the use of wood preservatives for the posts and cost of construction and maintenance are also being investigated.

In addition to the projects at the range station there are several other investigations being conducted in Alberta, Saskatchewan, and British Columbia, including an economic study of the vegetation, reseeding tests on burnt-over land, and a number of trials in the growing of forage crops for winter feeding. A beginning has been made on the study of the cost of production of range cattle in the different grazing areas, the object being, first, to learn the financial importance of different factors in the cattle business; secondly, to present a fair picture of the industry, and thirdly, to analyze the business for the purpose of learning which are the most profitable range practices to follow in the different localities.

New projects to be studied during 1930 will be the determination of the carrying capacity of the range land on the short grass plains, the winter feeding of cattle, the use of home-grown roughages and their economic value for hastening younger steers to maturity, and the value of supplemental feeding to cows on winter pasture.

When more complete information is available on summer grazing, winter feeding, and on cost of production, a fairly complete knowledge of

all phases of the cattle industry will be available.

Might Increase Apple Sales

Vending Machine Opens New Market For Canadian Product

One of the most interesting and important developments in connection with the marketing of apples in recent years is the automatic vending machine. Officials of the Fruit Branch of the Dominion Department of Agriculture are watching this development with special interest at the present time and Commissioner G. E. McIntosh states: "I think it will provide a new means of marketing apples which will prove at once popular and effective."

The new machines, of which there are two types on the market at the present time, have been tried out with surprisingly satisfactory results on a number of occasions. At the Royal Winter Fair, Toronto, last year, several of these machines were in operation and the sales for each machine ranged from 3,000 to 7,000 apples per day.

The automatic apple vendor is a "nickel-in-the-slot" contrivance by which the customer may select the apple he prefers from a range of size, variety and color. Both the wall and cylinder type machine carry the apples in trays with glass tops so that they are enticingly visible. The apples are kept in perfect condition through the use of dry ice, and the automatic vendor provides the individual an opportunity to get "an apple a day," or, what is more important, an apple when it is wanted.

An idea of the potential sales value of these machines in operation is afforded by the experience at the Royal Winter Fair. The machines there in the week they were in operation averaged sales of 2,500 boxes of fancy fruit of an average size of 125 apples to the box; at 5c apiece this meant \$625 a box or well over \$15,000 from the machine sales during the period of the Fair.

British Columbia has taken the lead in the introduction of the sale of apples by this type of appliance; one hundred machines being now in operation in the City of Vancouver and fifty being installed in Victoria.

Sweden Is Prosperous

Has Small Population But Is Very Progressive

Sweden, which has a population less than that of London, is one of the most prosperous of European countries. Though only a third of the small population lives in towns, Sweden is remarkably ahead in all matters of art—the drama, architecture, and so on. The Town Hall of Stockholm is one of the finest modern buildings in the world. There was a time when Sweden made a great stir in the affairs of Europe, when, united in national resistance to the encroachment of her neighbors, she waged war on Germany, Russia and Poland; her standards were raised in Munich, Moscow and Warsaw. These were the days of Gustavus Adolphus, Charles XII and eccentric Queen Christina, who dressed as a man and died a pauper in Rome. Today things are otherwise. The country has a great past and a most contented present—which is the best we would desire for any nation.

Woman claims equal rights with man in Japan as a pearl diver. Before the Jap girl is 15 she knows all about diving and is used to bring up oysters from depths of more than 35 fathoms.

Jinks—"Have you ever lost your temper before your wife?"

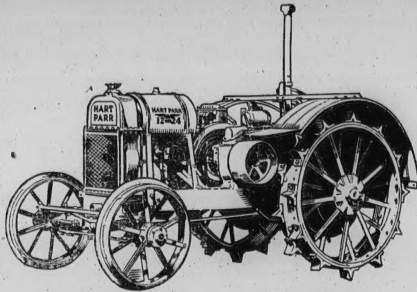

Binks—"Now, she beats me to it every time."

"It is the master! But where is his car?"

"Did he have his car with him? We wondered why he kept asking us to shut the window as we dragged him home."—Filegude Blatter, Munich.

A Neat Job at Fair Prices

VIKING

"Billy" Goodwin is dead. This was the startling report that spread over the community Thursday morning of last week. While it was generally known that he had undergone an operation at the local hospital a week previous, his sudden death came as a great shock to all. Complications set in from which he did not rally, and he passed peacefully away on Thursday morning, May 22nd, at five o'clock.

Funeral services were held at the Community Hall on Saturday, May 24th, at 2:30 P.M. The hall was filled with a large crowd from all parts of the district who came to mourn the passing of a friend and one who had been a respected citizen among them for the past twenty years. The services as conducted by Rev. J. W. Bainbridge, of the United Church, and Rev. A. L. Bee, of the Anglican Church, were a fitting tribute to one whose life had been so interwoven with the community life these past years. The infectious good nature of the deceased, the keen interest taken in clean sports of all kinds, and an unswerving loyalty to duty were mentioned by the pastors in their splendid addresses. The late Mr. Goodwin held a prominent office in the Viking Elks Lodge. At the close of the addresses, the impressive burial ritual of the Elks was conducted. Practically the whole membership of the local Elks was present in a body to pay their last respects to a departed brother.

The pall bearers were Dr. Little, Dr. G. W. Saunders, N. C. Graham, O. Fitzmaurice, J. J. Skallitzky and J. L. Dodds.

At the close of the service a procession was formed and the body escorted to the station where they were shipped to Edmonton for burial. A short service was held at Andrews funeral parlors in Edmonton on Monday forenoon before burial took place in the Edmonton cemetery.

At a meeting of the central sports committee of the Viking Agricultural Society held Monday evening it was decided to hold the annual sports day on Wednesday, June 25th, this year. This decision came after considerable discussion. For the past few years Viking has held sports on July 1st. Each year it has been increasingly difficult to get ball teams and attractions from other towns. At Mannville and Vegreville on the north line, Sedgewick to the south and Wainwright to the east also observe that day, and it has been well-nigh impossible to get any first class ball teams to come here on July 1st.

This year the baseball committee have a line on six teams that in all probability will be here, Sedgewick, Ryley, Vegreville, Irma, Holden and Viking.

The various committees in all lines of sports as printed in this issue, are already at work, and with everybody on the job, the biggest and best sports day Viking ever held, should be the result.

With the grounds in good shape, and a fine new hall for the dance at night, everything points to a banner day. The proceeds of the day will be used to further the interests of the work of the agricultural society in carrying on the annual fall fair.

It's up to everyone to boost.

The horse shoe pitching tournaments, that are being held each week are proving quite a success. The attendance is growing and competition keener. The winners in the last two tournaments have been P. A. Main and The Hoskins.

We understand that Vegreville is bringing down three teams for a match game on Friday, June 6th. Wainwright is also expected to come up in the near future.

A Cup has been promised by one of our prominent citizens for these match games which should stir up more inter-town interest.

Thos Hoskins and Jack Slavik took second money at the tournament at Vegreville on May 24th. The game close, the two pitching teams being 48 to 48, with two points to decide. Vegreville got a lucky break and negged out a win.

There will be a wide open tournament, open to everybody on the first Wednesday half holiday, June 4th, starting at 3 p.m. Enter your team and come and have a whirl at the prize money, there will be first, second and third prizes offered.

The club has a fine pitching ground laid out at the rear of the drug store and is being occupied at almost every hour of the day.

Mr. and Mrs. Richard Quance, of Delhi, Ont., stopped off here from Monday to Wednesday to visit with the Basil Hilliker and Howard Hilliker families, former friends at Delhi, before proceeding to the Coast.

The Viking ball team won their first game at the Vegreville sports on May 24th, but lost the second. There were six teams in the tournament. The finals were played between Ryley and Vegreville.

JARROW NEWS

Mrs. Tweedy returned to her home this week after visiting in Edmonton. While there Mrs. Tweedy attended the graduation of her daughter Miss Lillian from the Miskiwia hospital.

On Thursday evening Irma again defeated the local baseball team by a score of 7 to 3.

Mrs. A. R. Marby returned on Saturday from Melville, Sask. She was accompanied home by Mrs. G. Marby who is visiting here for a few days.

Gordon Bell of McLaughlin, Alberta, spent the holiday with his sister Mrs. Laxton.

The Ladies Aid met at the home of Mrs. Heron nine miles south of town on Wednesday afternoon. A short business meeting was held completing plans for the booth to be held on Sports Day and a social time followed. Mrs. McCracken assisted by Mrs. Heron was the hostess and served delicious refreshments at the close of the meeting.

Quite a number from here attended the piano recital given by Miss Price and pupils of Irma on Friday evening and report a most enjoyable evening.

Mr. W. H. Barton spent the holiday in the city.

Jack Stronach, of Rocky Mountain House spent the week at his home in Kinsella and visited friends in Jarrows on Saturday and Sunday.

A large number of local people took in the sports at Loughheed on May 24th. All report a good day's sport.

Rev. A. O. McNeill is spending the week in Edmonton where he is attending the Presbytery of the Province. There will be no church services on Sunday as Mr. McNeill will not be back by then.

Mr. and Mrs. Just are rejoicing over the birth of a son on Sunday, May 18th.

KINSELLA NEWS

Mrs. Nease and son spent the week end at Round Hill visiting friends.

Miss Isabelle Stronach spent the week end at her home here.

Nine cars containing the pupils of the Kinsella school which took part in the Musical Festival at Wainwright on Friday, May 23rd. We understand that they came within three points of winning the shield, and Miss Paddy Stronach received second prize as a soloist, which consisted of a medal, and much credit it due to Mrs. Wadden and the teachers, the Misses Larne and McGrath.

Mr. Jack Stronach of Rocky Mountain House spent the holiday at his home here.

Quite a number from here attended

the funeral of Mr. Goodwin at Viking on Saturday.

The contractors are erecting an oil warehouse for the Imperial Oil Co., near the stock yards.

Mrs. Ferris spent Friday afternoon at Wainwright.

Mr. and Mrs. F. Murray and Mr. and Mrs. Wadden spent Saturday evening at Viking.

Mr. John Evanshu spent Sunday with his family at Bruce.

Mrs. Allen and daughter returned from Edmonton on Thursday.

Miss Ellen Neale returned home on Sunday from Vermilion where she had been for the past week with her grandparents.

Household Hints

Smothered Sausages

1 cup sausage meat, 1 egg, 1 cup celery, 1 qt. mashed potatoes, 2 cups white sauce, salt and pepper.

Cook the celery until tender fry the sausage meat slightly, mix the sausage meat and celery, moisten with two tablespoons of the white sauce, or tomato sauce may be used if preferred. Have ready one quart of well seasoned mashed potatoes, add to it one half the beaten egg. Form into a thick roll with the sausage meat in the centre. Lay in a greased baking pan and brush with the rest of the beaten egg. Bake in a medium oven or until the potato is a golden brown in color. Remove to a hot platter and surround with the tomato or white sauce and serve.

Salmon Souffle

1 can Salmon, 2 T. butter, 3 eggs, 1-2 tsp. onion juice, 1 tsp. dried parsley, 2 T. flour, 3-4 cup milk, 1 tsp. lemon juice, 1-2 c. bread crumbs, salt and pepper.

Drain the liquor from the salmon, removing the skin and bones. Melt the butter, add the flour and gradually the milk, stirring constantly until thick and smooth. Season with salt and pepper. Remove from the fire and add the yolks of the eggs, well beaten, the lemon juice, onion juice, parsley and bread crumbs. Fold in the beaten whites, turn the mixture into a buttered baking dish and bake for about half an hour in a moderate oven. The baking dish should be placed in a pan of hot water.

ONE GOOD RECIPE MAKES A COOK FAMOUS

Perhaps the spring of the year is the hardest time of all to plan menus. There is such an insistent call from the out-of-doors these first warm days, that in spite of the fact that the market abounds with good things to eat it is a boring and tedious task to try to transform them to menus. An appetizing and easy recipe is this one of a Spring Fruit Salad.

Arrange a slice of fresh pineapple on crisp lettuce for each serving. For six servings peel two medium sized bananas, cut into thin slices and cover with 1-3 cupful of lemon juice. Let stand five minutes; drain, arrange around the pineapple slices. Stem two cupfuls of strawberries and arrange some in the centre of each pineapple slice. Serve with a mixture of half mayonnaise and half whipped cream folded together.

NOTICE TO OWNER OF IMPOUNDED ANIMAL (Sec. 33)

To Whom it May Concern—Notice is hereby given under Section 33 of The Domestic Animals Act (Municipalities) that One Red Bull, with horns, white patch on belly, about three or four years old, branded K over K on right thigh.

CHAPTER XIV.—Continued

A year before there had been talk of building a main schoolhouse in the center of the town; but the plan had been abandoned because so many of the children came from farms outside the village that it would have been necessary to send a bus to collect them, and the old way seemed easier. Then Charnian began her duties as teacher in the very room where she began her school days nineteen years before. The small, brick building was unchanged save for an impressive sign over the door which read, "Lincoln School." This replaced the battered, weatherworn board that had designated "District Four," and was a concession to the daring souls who declared that district school had "gone out of fashion," and that Wickfield would be a laughing-stock to the entire country unless some change in its educational system was made.

"You'd think to hear 'em talk," raged Deacon Purdie, who always flared into speech at any mention of spending money, either by the town, himself, or one of his neighbors. "That folks that went to the old schools ain't educated! I guess what was good enough for us is good enough for the smart Alecks that folks is raising these days. I caught that Eldridge boy makin' a—a disgraceful—er—gesture at me the other day!"

"If he'd caught all the people who went to the same thing," grinned Jimmy Bennett when Grandma related this piece of gossip, they'd reach from here to the district school that he's so keen about! The darned old hypocrite!"

But this time the deacon's faction had triumphed.

"If it hadn't," said Grandma regretfully when Charnian told her that the coveted "job" was landed, "it would be a sight easier for you, child. You'll have to start the cold part of the day to walk that distance. It makes me shiver just to think about it. I wish Ed Purdie had to walk it for you. He'd soon change his mind about whether young folks deserve a better school building!"

"Now don't begin worrying about next winter," laughed Charnian. "I dare say the exercise will do me good. I don't get half enough as it is now."

It was the first of August when Charnian was notified of her appointment. Other events followed quickly on its heels, the most aston-

ishing of all being the Sunday morning when Deacon Purdie surprised the congregation by walking proudly into church followed by the blushing Luella (wearing the much-talked-of yellow beads) and her six little olive branches.

"I feel sort of responsible, chucked Dean Garfield, who had stopped in after divine worship to talk the matter over with Grandma Davis. "I laid it on so thick about the cost of settling the thing by law, that I guess Edgar decided it would be cheaper to get hitched. Anyway, they went over to Eastboro yesterday afternoon and tied the knot. I haven't heard what bribe he used to make Luella change her mind, but she was smirking enough this morning to please any one."

"He might at least have given the wedding fee to Mr. Merry," complained Grandma. "What was the state of going clear to Eastboro?"

"Search me!" replied the little lawyer, throwing out his hands in an expressive gesture. "Maybe luck. Mr. Merry performed the last two ceremonies, and the brides up and died on him, as Lizzie Baker says. Anyway, Grandma, that lets you out of any trouble. Now that he's nothing to gain by it the deacon will never let it be known that you got the better of him in a deal."

Grandma glanced as she glanced from the window.

"Here they come now!" she exclaimed excitedly. They must have gone to meeting the long way 'round, for I've been here every minute since breakfast and never laid eyes on 'em before. It looks sort of like a bridal procession, Gam, with all those children dress attendants. My stars! I should think even Luella Moore (and she's a fool if ever there was one), would know better than to give her babies such a stepfather. I pity the poor little things, but I suppose their mother is counting on Edgar's joining his other wives in Kingdom Come, seeing he's so much older, and then she'll come into the Purdie property. Just look at how Edgar struts! He did the same when he married Emma Dodd, but with Carrie and Eva he was sort of drooping, they not being so handsome as his first. I don't suppose you know if Luella got on a new dress, Gamelle?"

The lawyer shook his head.

"That's beyond me, but here comes Charnian and the doctor. Perhaps they can supply the missing details."

He arose as the girl and her companion entered, and said triumphantly: "I beat you to it, Charnian! Skipped out as soon as I decently could and made a home run with the news. We've just been watching the bridal party from the window."

"Doesn't it beat all?" cried Grandma. "Did Luella have on a new dress, dearie? It looked to me like her old blue made over."

"I can't say," laughed Charnian. "I was far too thrilled watching the bridegroom to have any eyes left for Luella's raiment. The children spilled over into the Merry's pew, Grandma, but they behaved well."

"I saw their new naps give one of 'em a dirty look when she dropped a hymn book," proclaimed another arrival who proved to be Jim Bennett.

"I got that, too," declared John Carter. "I wonder if any one in church can remember the text," he added with a quiet laugh. "The center of attraction was certainly not the minister."

"Well," said the old lady, "I've no doubt that Mr. Merry understood and made allowances. Probably he had considerable trouble keeping his own mind on the sermon. Mr. Merry is real human if he is a minister. Did you know if Luella had a new dress, Jimmy? I'd admire to find out."

"Mother said it was an old one, fixed up," replied Jim gibbly. "Guess Edgar spared the ceremony on his love so suddenly, (considering their recent quarrel), that she didn't have time to visit her modiste."

Charnian giggled, while the doctor reproved her by saying: "I'm shocked at your levity, Miss Davis. This is a serious matter—to Luella."

"I'll say it is!" said Jim; and added, with a glance at the lawyer, "and it's cost you a good case, Gam. I'm surprised you should let such an opportunity slip through your fingers."

"It was a sacrifice on my part," replied Gamelle sighing. "I did it, Jim, to save an old friend from getting into trouble."

"He's joking," nodded the old lady, "but there's a sight of truth behind the joke. You'll get your reward in the next world, Gam, if you don't here. He's referring to a business transaction I had with the deacon, Jimmy," she explained. "I presume Charnian told you about it at the time."

"She did," grinned Jim. "My sole regret is that I wasn't behind the door with these precious eaves-droppers."

"Same here," asserted the lawyer, rising. "I'd have given ten dollars for the privilege of a front seat. Well, Grandma, I must run along or be late to dinner. All's well that ends well, and so long as Luella thinks she's adorning her beauty with some costly product of the Orient, why no harm's done. You going my way, Jim? I'll give you a lift."

"You're a dandy matchmaker, Grandma," remarked John Carter, as the callers departed and he took the chair beside her.

"Matchmaker!" echoed Grandma indignantly. "If I thought I'd had anything to do with giving those Moore children such a mean stepfather, I'd never rest easy in my grave. There goes George K. and Selma. They're waving. A nice couple if ever there was one, and successful, too. Selma can wear a silk dress every day if she wants to; but when they were married George K. was just beginning at the bank and earning less than ten dollars a week. Now he's president, and his three boys all went to college and are a credit to him and their mother. One of 'em writes poetry, and gets it printed in the magazines. I've always thought that if Charnian had more time she could be a writer. Once she wrote a real pretty piece about—"

"Grandma Davis!" reproved Charnian from the doorway. "I forbid you to boast about my youthful literary efforts. The subject is painful, and I haven't a doubt that the doctor wrote better ones himself in his early days."

"I can't vouch for comparisons," smiled the doctor, "but in my twelfth year I produced a masterpiece that caused a riot in the family. It began:

"The sun was setting o'er the battlements.
It shone on ladies and on gents. . . ."

"It was a ballad, dealing with love and covering six pages. My mother treasured it for years."

"Do Not Hesitate to Try It"

"Your Vegetable Compound is a good medicine. Anyone who is in poor health should not hesitate to try it. When I was taking the Vegetable Compound I tried the sample Liver Pills I found in the package. I have taken them every night since and I can feel myself improving. I am so thankful for the good they do me that I have told several women about it."—Mrs. C. W. Poff, 263 Huron St., Stratford, Ontario.

PIES are quickly Soothed & Healed BY Zam-Buk

"Of course she did," said Grandma seriously, though her lips twitched. "Don't giggle so, Charnian. You'll hurt the doctor's feelings. Is dinner ready? I feel hungry after so much excitement; and I presume Lizzie Baker'll be over soon as she eats."

(To Be Continued.)

THE REASON WHY

Thin Weak Children Need Baby's Own Tablets

Malnutrition or inability to derive nourishment from food, is a common trouble with little children and is entirely due to stomach and bowel weakness. Another cause of loss of flesh and sleep is worms.

To correct stomach and bowel troubles and thus banish constipation and indigestion, break up colds and simple fevers; expel worms and allay the pain which accompanies the cutting of teeth is what Baby's Own Tablets were designed for. They never fail to be of aid and can be given with safety to the youngest babe. Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

May Improve Radio Reception

Magnetic Observations Are To Be Made.

Better weather forecasts and radio reception may result from a year's international study of magnetic meteorological observations in the polar areas, Captain H. U. Sverdrup, noted Norwegian explorer, said.

Simultaneous observations near both poles in 1932-33 will gather magnetic auroral and meteorological observations through a network of stations in the Arctic and Antarctic. The International Committee of Meteorological Directors expects the increased knowledge gained to be of practical application to problems connected with terrestrial magnetism, marine and aerial navigation, wireless telegraphy and weather forecasting.

Miller's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms feed, and at the same time, they are subside and drive them from the system in their effect upon the digestive tract, restoring them to healthy operation and ensuring immunity from further disorders from such a cause.

Innovations On Ocean Liner

People Crossing Atlantic Have More Than Home Comforts

Among other innovations upon a new 45,000-ton liner that is being built in Italy we are promised a theatre. Already there are ships with garages, swimming baths, telephones, cabarets and the like, so that very soon passengers who make the Atlantic crossing will hardly realize that they are at sea at all.

If some of the old shellbacks who manned the famous tea clippers a century ago could return their comments upon these floating palaces would be amusing, and probably not very complimentary. There are still a number of people who enjoy the freshness and freedom from land worries that are the delights of a sea voyage, and they will be thankful that there are still many ships that are comfortable without being too reminiscent of life ashore.

No Asthma Remedy Like It. Dr. J. D. Kellogg's Asthma Remedy is distinctly different from other so-called remedies. Were this not so it would not have continued its great work of relief until known from ocean to ocean, and probably not very complimentary. There are still a number of people who enjoy the freshness and freedom from land worries that are the delights of a sea voyage, and they will be thankful that there are still many ships that are comfortable without being too reminiscent of life ashore.

River Being Moved

Because the Trinity River at Dallas, Texas, was restricting the growth of the city, it is being moved two and one-half miles and placed in a man-made channel. Twenty-five miles of embankment, 30 feet high and 154 feet thick at the base, will imprison the stream when the task is finished.

The Moscow government has approved a change in the calendar and time hereafter will be dated from November 7, 1917, the date of the Bolshevik revolution.

Heal the Sprain with Minard's.

Propose World Trip In Sailing Vessel

Would Take About Eighteen Months and Make Real Holiday

Business men in quest of a thorough holiday, who can enjoy an ocean voyage on an old fashioned sailing ship, have an opportunity of an unique trip if they accept an invitation which was reported to the Montreal Board of Trade at its council meeting recently.

The council was advised of a proposed round-the-world trip in a square rigged sailing vessel of about 3,500 tons gross registry, sailing from New York on or about September 15 next. The trip will take about eighteen months and stops will be made at practically all the principal ocean ports of the world. While the vessel is equipped with auxiliary engines, it is expected that these will be very little used and that as nearly as possible the voyage will conform to the conditions prevailing in the old sailing days. The ship will be manned by a capable captain and a large crew, and excellent passenger accommodation will be provided. As the accommodation is limited, only about fifteen couples will be taken as passengers.

Little Helps For This Week

"Commit thy works unto the Lord, and thy thoughts shall be established."—Proverbs xvi. 3.

When first thy eyes unbind, give thy soul leave.

To do the like; our bodies but fore-run.

The spirit's deity. True hearts spread and unto their god as flows do to the sun.

Give Him thy first thoughts then; so shalt thou keep Him company all day, and in Him sleep.

—Henry Vaughan.

Every morning before we cross our threshold, before we make a single plan or appointment for the day, we must give ourselves unto our Father's business. We are not, as we sometimes do, to determine what we will do, and then devote it to God, but we are first to devote ourselves to God, and ask Him what we shall do.—Alexander McKenzie.

Man Without a Country

Sam Holovitch, Russian, who fought for Canada in the Great War, is officially a "man without a country." Though an alien, he is permitted his liberty, for U.S. federal immigrations have tried twice in vain to find a land to which they could deport him.

Most of the street accidents in England are among people between 15 and 25 years old.

Turkey is conducting a campaign against juvenile gambling.

London's Moving Stairways

Will Be Speeded Up To 150 Feet a Minute

The moving stairways connected with London's famous underground railways are to be speeded up. At present this speed is 90 feet per minute. Experiments are being made with a stairway travelling at 150 feet a minute. Regular passengers who nip on and off the escalators with agility, would be glad to have them go faster, but the many who still regard them as perilous innovations will be more inclined than they are now to use the omnibuses.

"After Baby Came I Was Weak, Skinny Gained 22 Lbs."

"After baby was born I was very weak, skinny. Since taking Ironized Yeast I've gained 22 lbs."—Mrs. Laura Benoit.

Thousands write now Ironized Yeast adds 5 to 15 lbs. in 3 weeks. Regular followers who limp gain graceful roundness. Muddy skin gets clear and rosy like magic. Nervousness, indigestion, constipation vanish overnight. Sound sleep, new pep from very first day.

Two great tonics in one—special weight-building. Malt Yeast and strengthening Iron. Pleasant little tablets. Far stronger than unmedicated yeast. Results in 1/2 time. No yeast taste, no gas.

So quite being "skinny," tired, unattractive. Get Ironized Yeast from druggist today. Feel great tomorrow. Money back from manufacturer if not delighted with quick results.

Esperanto, the international language, is built up from the roots of 900 words, chiefly of Latin origin.

Greenwich observatory in England dates back to the time of Queen Elizabeth.

Gyproc Makes Summer Homes FIRE-SAFE!

PROTECT your family by making your Summer home draught-proof, dust-proof and fire-safe. The new Ivory coloured Gyproc, that does not burn will render you this service at small cost.

Use it for structurally strong walls, ceilings and partitions. It needs no decoration (when panelled) but you can tint, paper or plaster it if you wish. It is easily and quickly applied, is a permanent asset, and is vastly superior to other building materials.

Your dealer's name is listed below. Ask him today for full information on Gyproc Wallboard or send for interesting free book "Building and Remodelling with Gyproc."

43,000 RECEIVING OLD AGE PENSIONS

Ottawa, May 14th.—The Department of Labor is paying one half of the cost of the old age pensions to 43,000 pensioners, according to a statement issued by H. H. Ward, Deputy Minister of Labor. Mr. Ward said that the old age pensions scheme is now in effect in a majority of the provinces: British Columbia, Saskatchewan, Manitoba, Alberta, Ontario and the North West Territories.

New Brunswick has also just passed an act and consideration is being given to the subject in other provinces.

Main Street

Mrs. M. M. Ross and children arrived from British Columbia Thursday. Mr. W. Cooper, of the Roseberry district spent a couple of days in the last week end.

Mr. and Mrs. Bert Long, returned Tuesday after spending ten days in Calgary and Red Deer.

Mr. and Mrs. G. Hipperson motored to Edmonton Thursday night.

Miss Lila Maguire, of Edmonton, spent the holiday with her folks at Irma.

Mr. L. W. Maguire, former cook in the Irma Hotel, left Tuesday night for Edmonton.

Mrs. King and Mrs. Love received word today of the death of their sister, Mrs. R. C. Breckon, of Brony, Ont.

The Conservatives who held a meeting at Wainwright Thursday evening did not nominate a candidate to contest the seat in the provincial election.

The Irma Hotel has changed hands and has been thoroughly overhauled and painted and now can offer a good clean room to anyone. Meals at all hours. Give us a trial.

Mrs. Barresh suffered with another stroke Sunday morning, but we are glad to report she is slightly improved and Dr. Greenberg has hopes that she will be able to be around again.

The meeting of the Woman's Institute, will be held at the home of Mrs. A. Fischer on Thursday, June 5th, Roll Call, "What far country I care to see most and why." Meeting starts sharp at 2:30 o'clock. Mrs. Long and Mrs. Stead will act as hostesses.

Mrs. R. H. Dunlop, of Indian Head, Sask., arrived Saturday night to spend the summer with her parents Mr. and Mrs. Jas. Fenton. Mr. Dunlop who is supervising the distribution of trees for the government will be in Irma whenever he is working in this part of Alberta.

About twenty members of the Irma Lodge I.O.O.F. motored to Chauvin, Wednesday night to visit the Chauvin lodge. The Irma boys report having a good time and hope a return visit from Chauvin at a later date.

Monday night most of the girls in the Irma district met and had a practice game on the ball diamond. Some of the spectators claim that with a little practice the girls team will be able to trim the boys.

Mr. D. M. Soole, proprietor of the Homestead Hotel and Bungalows, of Banff, where most of the Irma tourists make their headquarters when visiting this delightful summer resort, has made some fine improvements in his property. A new unique rustic building to be known as the "Homestead Tavern" has been built at the end of the lawn. This will be run as a restaurant, cafe and lunch counter where guests and others can obtain anything they wish at almost any hour. The old dining room in the main building has been converted into bedrooms, thus giving larger sleeping accommodations in the main building. Mr. Soole also has several cottages that can be rented by tourists wishing more privacy. Tourists wishing to stay a day or more in Banff will be pleased with the rates and accommodation to be had at the Homestead Hotel.

RED CROSS ACTIVITIES

Celebrating the League of Nations day on April 22nd, one thinks with gratitude of the tremendous impetus given to the world's health and happiness by the Article XXV of the Treaty of Paris, (1918) in which the Red Cross Society is given its mandate to "carry on".

The three aims "The improvement of health, the mitigation of suffering, and the prevention of diseases" are fundamental to the welfare of every man, woman, and child in this country.

The people of Canada, hardy of race, rich in heritage, have a stupendous task ahead of them in interpreting the above policy.

In every province the Red Cross has its group of workers, who are constantly in touch with health problems, whether it be that of the ex-soldier, or the distant settler, or the day-old babe born in an outpost hospital, or the little crippled child.

Alberta Red Cross is still marching "breast forward", and in spite of financial difficulties which sometimes appear well high insurmountable, the Red Cross workers have faith that the flag of Red Cross will ever fly over the little country school-house, where Juniors are maintaining health traditions worthy of their great Society and that the underprivileged child will ever find a home of healing in the Children's Hospitals in Calgary and Edmonton.

"I just thought of a big joke," said a fellow to a girl at the dance here. "Oh, keep your mind off yourself once in a while," she replied.
